**Re: State Budget Funding for Broadband
Letter of Support from the City of South San Francisco**

Dear Governor Newsom, Chairperson Skinner, and Chairperson Ting:

I write to express our strong support for Governor Newsom's proposal to invest \$7 billion as part of a plan to expand broadband infrastructure, increase affordability, and enhance access to broadband for all Californians. As budget negotiations finalize, I respectfully urge the Senate and Assembly to incorporate language which keeps the full \$7 billion and allows local jurisdictions to access these funds, into the Legislature's final budget.

As you all know, the pandemic has underscored the importance of making broadband accessible and affordable for various aspects of modern life. California needs the ability, to work with and empower local partners to deploy this infrastructure at large scale—specifically, we appreciate and support the Governor's proposal to create a public financing program that backs municipalities, non-profits, cooperatives, and others to access long-term financing which will unlock their potential to build 21st century access. A recent survey by the County of San Mateo found that the greatest need for broadband service in South San Francisco is in our lowest income census tracts, specifically our Downtown and Old Town neighborhoods. I support the construction of an open access "middle mile" fiber network so that all communities have the ability to tap into a quality network.

In order to bridge the digital divide, local governments and their partners must have access to these dollars. Complete funding with the ability for municipalities to access is critical, and I urge the Administration and Legislature to work together and ensure that these funds are part of the final State Budget.

Sincerely,

Mark Addiego, Mayor
